

Wilco Soetman

Taipei City, Xinyi District, Zhongxiao East Road, Section 5, Lane 295, Number 20, 4F-1

Phone: +886 9 81280123 email: wilcows@gmail.com

EMPLOYMENT

2014 - 2020

MINIWIZ

Product Design Engineer

General responsibilities providing design and engineering skills for the development and representation of products. Including 3D modeling, material engineering, strength calculations, manual mockup and prototype building and visual renderings both 2D and 3D.

2017

PENTATONIC

Product Design Engineer

A six months exchange bearing general responsibilities providing design and engineering skills for the development and representation of products. Including 3D modeling, material engineering, strength calculations and visual renderings both 2D and 3D.

2014

Pilotfish

Product Design Engineer

A five month long internship for my graduation thesis. Covering fully detailed market research, usage research, various concept inceptions and eventual prototyping of a Sous-Vide cooking device.

2012-2013

25togo

Product Design Engineer

A six months internship carrying general designer responsibilities such as product idea conception and development of product ideas into concept stages.

2012

Toro-Asia

Product Design Engineer

A six months internship exploring the development of a concept of a portable e-wallet device, from idea inception to early prototyping phase.

PERSONAL

Marital Status:

Single

Date of Birth:

September 29th 1990

Nationality:

Dutch

Languages:

English (fluent)

Dutch (fluent)

Chinese (rough basics, but improving)

EDUCATION

2008 - 2014	<i>Bachelor of Science in Industrial Product Design Engineering at Saxion University of applied science in Enschede, the Netherlands</i>
Feb 2013 - July 2013	<i>Minor in Industrial Product Design Engineering at Saxion University of applied science in Enschede, the Netherlands</i>
2003 - 2008	<i>Havo (school of higher general secondary education) at Bonhoeffer College Enschede.</i>

SKILLS

Softwares	<i>Adobe illustrator, Photoshop, Solidworks, Keyshot, Logic Pro, MAC OS, Windows OS.</i>
Familiar with	<i>Final Element Analysis (FEA), material properties, production methods, basic structural engineering, graphic design, packaging design, Solidworks Simulation, marketing basics.</i>
Strengths	<i>Rendering/animations, UI design, photography, good at physical mockup and prototype building, divergent thinking, overall handyman.</i>
Interests	<i>Art, design, architecture, cars, philosophy, astronomy (not astrology), reading, weight lifting</i>
