Masters Indoor Hockey World Cup Update

**One Year Postponement for
MIWC 2021 Due To COVID**

**Next MIWC: March 2022
Philadelphia, USA**

Dear Hockey Friends,

Due to the unfortunate continuing reality of the COVID-19 pandemic, WMH has determined that it will be necessary to delay the next Masters Indoor World Cup, to be held near Philadelphia, USA. This postponement will move the original date of March 2021 by one year to March 2022.

MIWC 2022 will still be hosted at the same outstanding indoor hockey facility near Philadelphia, USA, as originally planned. This [venue](#), home to WC Eagles hockey club, holds three full-size FIH-perfect indoor courts under the same roof. We expect a truly fantastic event with a very high level of play and equally strong levels of international camaraderie and good spirit.

Our MIWC 2022 organizing committee is in the process of finalizing the specific dates in March, 2022, and will send out these details within the coming weeks. This and other information will be made available at usamastersfieldhockey.org and teamusa.org/USA-Field-Hockey.

We are very much looking to better times ahead when we can come together again as indoor hockey playing nations and celebrate our sport. Until then, we send good wishes and thoughts of safety, care, and unity to our worldwide hockey family.
