

## COVID-19 HEALTH REGULATIONS DURING YOUR VISIT

Dear Sir/Madam,

As you undoubtedly know, the COVID-19 virus has caused many sectors to close their doors temporarily or at least continue under strict regulations. We, as VATAN clinic, of course take apprehending measures regarding our work and we advise you to read the following carefully and to carry it out during your visit. Thank you in advance.

### **Follow the advice of the personnel.**

Our employees have received instructions to guide you through the process. You must follow the instructions of the staff, as they know which measures are required to safely perform the treatment as safely as possible.

### **Arrival**

On arrival at the clinic a **maximum of 1 person** is allowed to enter. You will pay for the treatment and will then receive the papers to fill this in. You leave a phone number to be called for, once we are ready, for the treatment to take place. We strive to keep as less people in the facility as possible, to ensure maximum safety. The rest of the treatment will flow naturally.

Please take the following advice and facts into account:

### **Advice**

If anyone in your household has coughing, sneezing and flu-like symptoms, please stay at home and cancel the appointment ideally **48 hours prior to the treatment day**.

Good hand hygiene by first washing hands upon entry and in the OR.

Sneeze and cough in your elbows.

Do not give hands.

Our staff members wear fully protective clothing. **During the treatment**, the 1,5 meter distance rule is not necessary.

### **Facts**

Short-term contacts around the counter are comparable to contacts in public life. So no extra measures than the above mentioned are needed here.

COVID-19 virus policies are subject to constant change. VATAN clinic follows the policy of RIVM. You will be notified of any changes to the above policy.

Best regards and see you soon,

M.S. Genco MD, Pediatrician  
CEO VATAN kliniek B.V.
